About Us

RMD Board Division is the first step towards fulfilling aspirations of a global footprint for JRD International; a leading, progressive and innovative industrial group from Dubai, UAE.

With RMD Board, we've introduced Next Gen materials for building & construction, interior-decor, wall-decor, office-decor, automobile, advertising and many more sectors at our green, state-of-the-art plant at Jebel Ali Free

Environment consciousness and global ambition are our driving forces, and we are on the fast track of embarking on a journey to build a green world for future generations.

“They say imagination fuels ideas, but I believe an idea can also bring onto the path of success. I, for one, have always believed in the latter. For it is tried and tested that an idea that can inspire and feed our imagination is more fruitful and sustainable of the two.”

Anupam Lunavat, Managing Director
